6.3 Electronic Data Interchange

AMM prefers electronic billing or electronic data interchange (EDI). EDI is a computer to computer transfer of information. EDI is a fast, inexpensive and safe method for automating the claims business processes. The benefits of using EDI are:

- Reduced costs (saves on staffing, overhead, claim forms, mailing materials, and postage)
- Tracking and monitoring of claims (no claims "lost in the mail")
- Faster turnaround times
- Consistent processing (no data conversion errors)
- Data security and privacy (data exchange occurs in secure and private environments)

Providers can submit EDI claims electronically through a HIPAA-approved billing system, software vendor or clearinghouse. Using a clearinghouse can streamline the provider's billing processes by using a single system. Clearinghouses are connected with numerous insurance payers including AMM.

Electronic transactions must contain HIPAA-required data elements in all fields in order to be successfully processed. A clearinghouse and/or AMM will return claims submitted with incomplete or invalid information for correction. Billing providers are responsible for working with their EDI vendor or clearinghouse to ensure that claims with error are corrected and resubmitted. Many clearinghouses have web portals that allow for manual correction and resubmission.

All provider claims must be submitted and accepted by their clearinghouse within the contracted filing limit to be considered for payment.

Electronic data transfers and claims are HIPAA compliant and meet federal requirements for electronic data interchange (EDI) transactions & code sets.

Providers can contact EDI services by telephone at (888) 614-0846 or by email at support@amm.cc.

AMM will accept 5010 compliant 837 transactions directly from providers. Implementation guides are available at http://store.x12.org/store. Please note, enrollment is required. Providers can enroll by contacting EDI services at (888) 614-0846 or by email at support@amm.cc.

AMM accepts the following HIPAA compliant claim format:

- CMS 1500 - ASCX12 5010 837P
- UB-04 - ASCX12 5010 837I

For a complete list of AMM clearinghouses please visit http://connecttocare.amm.cc/Home/Providers.

Providers should contact EDI services by telephone at (888) 614-0846 or by email at support@amm.cc if their preferred clearinghouse is not listed.

6.5 Clinical Record Submissions Categories

The following is a list of claims categories where AMM may routinely require submission of clinical information before or after payment of a claim. For information about time frames for submission of clinical information, see *Request for Additional Information* in this section.

- Claims involving certain modifiers, including but not limited to Modifier 22 and/or Modifier 95 for telemedicine services
- Claims involving unlisted codes
- Claims for which AMM cannot determine from the face of the claim whether it involves a covered service, thus the benefit determination cannot be made without reviewing medical records (including but not limited to specific benefit exclusions)
- Claims that AMM has reason to believe involve inappropriate (including fraudulent) billing
- Claims that are the subject of an audit (internal or external) including high dollar claims
- Claims that have been appealed (or that are otherwise the subject of a dispute or reconsideration, including claims being mediated, arbitrated or litigated)
- Other situations in which clinical information might routinely be requested:
    - Requests relating to underwriting (including but not limited to member or physician misrepresentation and fraud reviews)
    - Accreditation activities
    - Quality improvement/assurance activities
    - Credentialing
    - Recovery/subrogation

Examples provided in each category are for illustrative purposes only and are not meant to represent an exhaustive list within the category.

6.6 Claims Coding

Regardless of the method you use, all FQHCs must bill using a UB-04 claim form, with appropriate codes, and in a manner acceptable to AMM. Professional claims should bill using a CMS 1500 form along with the appropriate codes.

All Connect to Care claims submitted for payment need to include the current HIPAA-compliant code sets required by the state and federal government.

6.7 Coding Guidelines

Providers must use the following national guidelines when coding claims:

- International Classification of Diseases, 10th Revision (ICD diagnostic and Procedure Codes). Applicable ICD procedure codes must be in Boxes 74(a-e) of the UB-04 form when the claim indicates a procedure was performed. Medi-Cal Local Only Codes (Local Only Codes). Use Local Only Codes until the state remediates the codes. Do not use Local Only Codes for dates of service after the remediation date. Local Only Codes billed after the remediation date are denied for use of an invalid procedure code.
- Healthcare Common Procedure Coding System (HCPCS): Refer to the current edition of HCPCS published by the Centers for Medicare and Medicaid Services (CMS).
- Current Procedural Terminology (CPT) Codes: Refer to the current edition of the Physicians' CPT manual, published by the American Medical Association.
- Modifier Codes: Use modifier codes when appropriate with the corresponding HCPCS or CPT Codes.
- Local Only, HCPCS or CPT Codes.

6.8 Checking Claim Status

All clean claims will be processed within 30 days from the day of receipt. If the claim contains all required information, the claim will enter into AMM's claims system for processing. Providers will receive an explanation of benefits (EOB) when the claim is finalized.

Providers may confirm receipt of their claims after 5 business days from the date the claim was submitted through the AMM Claim manager website at https://claims.amm.cc/.

Providers must first register to use the site by clicking on the registration link or by visiting https://claims.amm.cc/Register.aspx.

AMM or the provider's contracted clearinghouse will return claims submitted with incomplete or invalid information for correction. Billing providers are responsible for working with AMM, their EDI vendor or clearinghouse to ensure that claims with errors are corrected and resubmitted. Many clearinghouses have web portals that allow for manual correction and resubmission.

6.9 Request for Additional Information

Providers have 60 business days from the date on the Explanation of Benefits (EOB) to submit the corrected claim information to AMM. If the provider resubmits the corrected claim after 60 business days, the claim will be denied for untimely filing. Include a copy of the reject letter with your corrected claim submission. Refer to Section 6.2 regarding *Timely Filing of Claims*.

If a provider files a claim with the wrong insurance carrier and provides documentation verifying the initial timely claims filing was within the contracted filing limit, AMM will process the provider's claim.

6.10 Claims Appeals Process

AMM offers a claim appeal process for issues pertaining to processing of provider claims. Providers may submit one appeal (or dispute) per claim.

Providers must submit their request for consideration in writing or by fax within 60 business days from the date of the provider's receipt of the Explanation of Benefits (EOB). Providers may download a *Claim Appeal/Dispute Form* on AMM's website at:
http://connecttocare.amm.cc/Home/Providers

The provider's submission must include a complete *Claim Appeal/Dispute form*, a copy of the original and/or corrected claim form, and supporting documentation not previously considered to:

CMSP – Advanced Medical Management, Inc.
Attn: Claim Appeals
5000 Airport Plaza Drive, Ste. 150
Long Beach, CA 90815-1260
Fax (562) 766-2007

Please note that providers receive an EOB with every claim, whether paid or denied.

Claim appeals are reviewed on a case-by-case basis. AMM will acknowledge all provider claim appeals in writing within 15 calendar days of receipt and will send a written resolution notice 45 business days from receipt of the reconsideration request. If providers are dissatisfied with the resolution after exhausting the appeal process, refer to the dispute resolution process in the CMSP Governing Board participating Provider Agreement.

6.11 Claims Overpayment Recovery Procedure

AMM seeks recovery of all excess claim payments from the payee to whom the benefit check is made payable. When an overpayment is discovered, AMM initiates the overpayment recovery process by sending written notification of the overpayment to the provider. Please return all overpayments to AMM upon the provider's receipt of the notice of overpayment.

If providers want to contest the overpayment, contact AMM's Recovery Department at (888) 614-0846. For a claims reevaluation, please send correspondence to the address on the overpayment notification.
If AMM does not hear from the provider or receive payment within 60 business days, the overpayment amount is deducted from future claims payments to the provider or referred to a collection service.

Section 7.0 – Provider Grievance and Appeals

Advanced Medical Management, Inc. (AMM) offers a grievance process and an appeals process for adverse determinations. Both of these processes are outlined in the following section.

7.1 Provider Grievance Process

All grievances must be submitted to AMM within 60 calendar days of the date giving rise to grievance. AMM maintains confidentiality throughout the process.

Grievances submitted to AMM are tracked and trended and resolved within established periods.

Providers may obtain a *Complaint/Grievance form* at http://connecttocare.amm.cc/Home/Providers and may fax the form to (562) 766-2006 or submit the form via mail to the following address:

AMM may extend the resolution period up to 14 calendar days if the member or his or her representative requests an extension or AMM shows that there is a need for additional information and how the delay is in the member's interest.

If AMM extends the resolution timeframe for any reason other than by request of the member, AMM will provide written notice of the reason for the delay to the member.

AMM will not discriminate or take any punitive action against a member or his or her representative for submitting a grievance. Grievances are not appealable to the CMSP Governing Board.

8.2 Member Appeals

A member or his or her authorized representative may submit an oral or written appeal of a denied service or a denial of payment for services in whole or in part to AMM. Members or their representatives must submit appeals within 60 calendar days from the date on the notice of action. With the exception of expedited appeals, members must confirm all oral appeals in writing, signed by the member or his or her authorized representative. The member and his or her representative are given a reasonable opportunity to present evidence and allegations of fact or law and cross-examine

witnesses in person, in writing, or by telephone if so requested. AMM will inform the member of the time available for providing the information, and that limited time is available for expedited appeals.

The member and his or her authorized representative are given an opportunity, before and during the appeal process, to examine the member's case file, including medical records and any other documents considered during the appeal process.

AMM may request medical records or a provider explanation of the issues raised in the appeal by telephone or in writing by facsimile, mail or email. AMM expects providers to comply with the request for additional information within 10 calendar days.

8.4 Response to Standard Appeal

AMM notifies members in writing of the appeal resolution, including their appeal rights (if any), within 45 business days of receipt of the appeal request. AMM does not disclose findings or decisions regarding peer review or quality-of-care issues.

AMM may extend the resolution period up to 15 calendar days if the member or his or her representative requests an extension or we show that there is a need for additional information and how the delay is in the member's interest. If AMM extends the resolution period for any reason other than by request of the member, AMM will provide written notice of the reason for the delay to the member.

8.5 Expedited Appeals

If the amount of time necessary to participate in a standard appeal process could jeopardize the member's life, health or ability to attain, maintain or regain maximum function, the member may request an expedited appeal. A member may request an expedited appeal in the same manner as a standard appeal but should include information informing AMM of the need for the expedited appeal process. Within one business day of receipt of the request for an expedited appeal, AMM will make reasonable attempts to acknowledge the request by telephone.

If AMM denies a request for an expedited appeal, AMM will:

- Transfer the appeal to the period for standard resolution.

- Make a reasonable effort to give the member prompt oral notice of the denial and follow up within 2 calendar days with written notice that the expedited appeal request will be resolved under the standard appeal timeframe.

AMM may request medical records or a provider explanation of the issues raised in the expedited appeal by telephone or in writing by fax, mail or email. We expect providers to comply with the request within one calendar day of receipt of the request for additional information.

8.6 Response to Expedited Appeals

AMM resolves expedited appeals as expeditiously as possible. AMM makes reasonable efforts to investigate, resolve, and notify the member of the resolution by telephone and we send a written resolution within thirty (30) business days of receipt of the expedited appeal request.

AMM may extend the resolution period up to 15 calendar days if the member or his or her representative requests an extension or AMM show that there is a need for additional information and how the delay is in the member's interest.

Section 9.0 – CMSP Governing Board Appeal

If the member does not agree with what AMM decides after they review the member's appeal regarding a denial, delay or change of a service, the member can file a second-level appeal with the County Medical Services Program (CMSP) Governing Board.

The member must exhaust all internal appeal rights with AMM before seeking review by the CMSP Governing Board. The member must ask for review by the CMSP Governing Board within 30 days of receipt of AMM's Appeal resolution letter.

86328	Immunoassay for infectious agent antibody(ies), qualitative or semiquantitative, single step method (e.g., reagent strip); severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease [COVID-19])	This code reports immunoassay antibody testing for severe acute respiratory syndrome coronavirus 2 using a single-step method such as a reagent strip. The test may be requested as single-step qualitative or semi-quantitative; infectious agent specificity may also include terminology such as SARS-CoV-2, coronavirus disease, or COVID-19. In one method, a reagent strip, pre-coated with appropriate IgM and IgG antibodies, is taken from its sealed container following collection of blood or serum from the patient. The sample is placed in the specimen well and diluent is added. Once the specimen and reagents react with the strip's test area, the specimen is read and results are interpreted and reported.
